This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<https://www.journalijecc.com/index.php/IJECC/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. (Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)	1 The manuscript could be important for scientific community, but we need more results to improve that in my opinion. 2- the author must increase the level of the English language of the title. 3- The author must avoid the lines collared in yellow colour. -The author must introduce completely the abbreviations collared in pink colour to make them easy for understanding: 4 the author need to add figures and improve the level of the writing The author must write in English the word " rabi ":spring In the subsections "Material and Methods" the author must avoid the title colored in yellow color. The paragraph selected in green color means author must avoid repetition 5 the author must improve the level of the writing 6- the references aren't recent, author must choose references between 2016-2022.	
Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications?	The author must do a huge revision and increase the level of the English language	
Optional/General comments	Finally, i did my best to review the paper, on the other hand, the authors must do a global and deeper revision correctly.	

PART 2:
