PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <ol style="list-style-type: none"> Is the manuscript important for scientific community? (Please write few sentences on this manuscript) Is the title of the article suitable? (If not please suggest an alternative title) Is the abstract of the article comprehensive? Are subsections and structure of the manuscript appropriate? Do you think the manuscript is scientifically correct? Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>		
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> Is language/English quality of the article suitable for scholarly communications? 	<p>I thank the editor for the invitation and the authors for the research done. Comments: i) In the abstract the sentence: "krishi vigyan kendra, Sawaimadhapur, Rajasthan in two consecutive years of 2018-19 and 2029-20" should be replaced by "Krishi Vigyan Kendra, Sawaimadhapur, Rajasthan in two consecutive years of 2018-19 and 2019-20"; ; ii) the sentence should be replaced by " at the Introduction section the sentences ii-1) "It is a annual" should be replaced by "It is an annual"; ii-2) "to asia and north Africa" should be replaced by "to Asia and north Africa"; ii-3) "childrens"by "children". The authors should rectify some small errors in English, resorting to an expert in this language.</p> <p>At the end of the Introduction section, the authors explain the importance of this study: "That's why there is a need to find out proper irrigation schedule and nitrogen level for the chandrasur for zone III B of Rajasthan".</p>	
<p>Optional/General comments</p>	<p>The subject described is easily perceived by the reader, well structured, with objectives defined in the Introduction, the methodology allows anyone interested in the subject to reproduce the study, and the conclusion does not repeat previous results but clearly summarizes the study</p>
