PART 1: Review Comments

	Reviewer's comment	**Author's comment** *(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)*
Compulsory REVISION comments **1. Is the manuscript important for scientific community? Fair** (Please write few sentences on this manuscript) **2. Is the title of the article suitable?** (If not please suggest an alternative title) **3.** Is the abstract of the article comprehensive? **Yes** **4.** **5. Are subsections and structure of the manuscript appropriate?** **6. Do you think the manuscript is scientifically correct?** **7. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.** **(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)**	**Title of the article did not reveal the RCT done and showed nothing causative of factors implicated .It doesn't seem to follow the PICO concept** **Tha abstract is fair** **Yes,however about 50% were more than 9years old,while some were not properly referenced** **It will be nice if the author could get more recent references less than 5years anf endeavour to stick to the specified references pattern,either Vancouver or Havard**	
Minor REVISION comments **1. Is language/English quality of the article suitable for scholarly communications?**	Seems too plane in some expressions	
Optional/General comments	Some minor corrections required
