

## Review Form 1.7

Journal Name:	International Journal of TROPICAL DISEASE & Health
Manuscript Number:	Ms_IJTDH_96620
Title of the Manuscript:	Risk Factors associated with Leptospirosis in Si Sa Ket Province, Thailand
Type of the Article	Original Research Article

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijtdh.com/index.php/IJTDH/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Compulsory</b> REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <b>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</b></p>	<p>1. Research on risk factors for leptospirosis has often been carried out. This research has not contributed much to the development of prevention of leptospirosis.</p> <p>2. The title already describes what was done in the research</p> <p>3. The abstract is complete, only the conclusions are not in accordance with the results of the research</p> <p>4. already appropriate</p> <p>5. accordance with the rules of scientific research</p> <p>6. some references are too old, need to be replaced with newer ones</p>	
<p><b>Minor</b> REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	good enough	
<p><b>Optional/General</b> comments</p>	this study is almost similar to the study of Toemjai et al (2021) Leptospirosis in Si Sa Ket, Thailand: Incidence and Factors of Death during 2010-2019. the research results are also very simple and only repeat from previous studies, there is no new information.	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
