PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. (Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>The manuscript describes only the procedure to perform endoscope. However, no detailing was provided on endoscopic assessment of polyps or cancer. Images included are of only normal mucosa when the title mentions the significance of colonoscope in cancer detection. Title is not suitable for the manuscript provided. Various utilities of colonoscope in different neoplastic lesions of GIT should be described in detail.</p> <p>No reference provided for the statistics provided in abstract. As per WHO, ischemic heart disease is the leading cause of mortality worldwide. Cancer may be one of the causes but it is not listed in top 5 leading causes. Reference given below. https://www.who.int/news-room/fact-sheets/detail/the-top-10-causes-of-death#:~:text=Leading%20causes%20of%20death%20globally&text=The%20world's%20big%20killer%20is,of%20the%20world's%20total%20deaths.</p> <p>Subsections should include assessment of polyps (like Haggit classification, pit pattern etc) and malignancy with relevant images.</p> <p>The information that are provided are scientifically correct but inadequate</p> <p>References are sufficient for the given manuscript</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	Yes	
<p>Optional/General comments</p>		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p>(If yes, Kindly please write down the ethical issues here in details)</p>
