

Editor's Comment:

This paper is titled "Approximation Algorithms for α -bisubmodular Function Maximization subject to matroid constraint" is very interesting, The author introduces an approximation algorithm for maximizing α -bisubmodular function with matroid constraint, where the α -bisubmodular function is a generalization of a bisubmodular function.

The author addressed the main concerns from the reviews, the revised version of the manuscript appears to be good. It looks READY for publication.
