

Review Form 1.7

Journal Name:	Journal of Advances in Mathematics and Computer Science
Manuscript Number:	Ms_JAMCS_96637
Title of the Manuscript:	Approximation Algorithms for α-bisubmodular Function Maximization subject to matroid constraint
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljamcs.com/index.php/JAMCS/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. (Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)	Yes Yes Yes Yes Yes Yes	
Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications?	By and large, the language used is appropriate, except for the Conclusion section. In addition, there are some typographical errors that need to be corrected.	
Optional/General comments	Page 2 Line 3 to read, Sviridenko in [13],... Page 2 Line 8. Replace the word concerned with covered to read: In recent years, k submodular maximization problem, has been widely covered. Page 2 Line 14. Restructure the statement beginning with Oshima [(10)] Page 2 Line 20. Iwata et al. [(6)] further extended their algorithm... Page 2 Line 21. Replace the word combing with combining . We call a set A independent is A belongs to I and... 2. Preliminaries Line 2... and if e is not contained in X_1 and X_2 ... Page 5... it implies that... 5. Conclusion This section should be re-written afresh. The language used is not approximate and does not communicate anything.
