

Editor's Comment:

I refer to the article JERR 96547 with the title "A Study on Laboratory type Paper Machine using Nano Fibrillated Cellulose from Recycled Old Corrugated Containerboard as Bio Additive in Board Production", in the second version. The authors have improved this version, taking into account the comments of the referees.

In this way, I think that the **article can already be published.**

Editor's Details:

Dr. David Armando Contreras-Solorio
Professor, Autonomous University of Zacatecas, Mexico.
