PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u>	This manuscript briefly provides an overview of causes of tooth discoloration and different methods of tooth whitening which had been well established previously. The manuscript could be further improved by including more relevant information on effectiveness of tooth whitening and severity of post-operative sensitivity. A suggestion to title: " An update of tooth whitening procedure: A narrative review" For a review, more details of methodology and findings of the review should be provided in abstract Subsections are appropriate. It is scientifically correct, but further improvement is needed References are sufficient Other comments: Introduction: -It is better to change the subtopic of "staining of teeth" to " aetiology of tooth discoloration". -extrinsic tooth discoloration could be caused by food and beverage. Details should be included for methodology, results and discussion	
Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications?	It is suitable	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
