<p>Compulsory REVISION comments</p> <ol style="list-style-type: none"> Is the manuscript important for scientific community? (Please write few sentences on this manuscript) Is the title of the article suitable? (If not please suggest an alternative title) Is the abstract of the article comprehensive? Are subsections and structure of the manuscript appropriate? Do you think the manuscript is scientifically correct? Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>The manuscript is reasonably well laid out and presents a current and important topic within restorative dentistry. The review is interesting and the title adequate to what is proposed. The Abstract is a reflection of the whole work and it seems to me that it lacks details of the methodological process. The Introduction is reasonable but the Methodology lacks information such as the investigated database and review parameters as a key question among other issues. A review of the methodology is needed to make it more scientific.</p>	
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> Is language/English quality of the article suitable for scholarly communications? 	reasonable	
<p>Optional/General comments</p>	<p>The manuscript present important and interesting aspects regarding dentin sealing for indirect bonded restoration. This manuscript can be glimpsed for a scientific publication within the scope of the Journal of Pharmaceutical Research International, however the manuscript it seems possible publication some questions should be considered by the authors. The most important and necessary is the insertion of the methodological data used in this research.</p>
