PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. (Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)	1. I found the manuscript important for the scientific community. 2. I agree with the title of the article. 3. The abstract of the article is comprehensive and precise. 4. The subsections and structure of the manuscript are acceptable. 5. The manuscript is scientifically acceptable, however, the table 1 need to be a sample and in a proper way. The current table is an image, which is not a good sign for the publication. Please make a proper table. 6. The references are sufficient, however, I recommend the paper (Khan SU, Mahjabeen I, Malik FA, Kayani MA. Prognostic significance of altered blood and tissue glutathione levels in head and neck squamous cell carcinoma cases. Asian Pac J Cancer Prev. 2014;15(18):7603-9. doi: 10.7314/apjcp.2014.15.18.7603. PMID: 25292035). For the addition of some information about head and neck squamous cell carcinoma in discussion part.	
Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications?	The English language is acceptable.	
Optional/General comments	In conclusion, I recommend acceptance of this manuscript for publication with grade "**A" *A1 = 90% – 100%, *A = 80% - 89%, *B = 70% - 79%, *C = 60% - 69%, *D = less then 60%	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
