<p>Compulsory REVISION comments</p> <ol style="list-style-type: none"> 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. (Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments) 	NA	
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> 1. Is language/English quality of the article suitable for scholarly communications? 	<p>The diligent efforts put in by the authors in the paper are commendable. The language used in the paper is comprehensible. The paper is suitable for publication with minor revisions. The role that factors like improvements in energy efficiency, a well developed electric mobility ecosystem, ubiquitous rooftop solar adoption, growth of the knowledge economy, growth of the circular economy etc. could play in affecting the relationship between per capita GDP and CO₂ emissions could be studied. Further, the role that policy interventions (like incentives for industrial units fitted with emission re-utilization technologies) could play in affecting the relationship between per capita GDP and CO₂ emissions could also be studied.</p>	
<p>Optional/General comments</p>	NA	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
