PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	My comments are as follow: <ul style="list-style-type: none">• In the abstract section, I suggest not put the standard deviation of your values.• In the keywords section replace the word "Brand", "Hull" or "Ogi" by "Rapid Visco-Analyser", "Sensory Evaluation" or other keywords.• For the "sensory evaluation", what kind of statistical analysis did you apply? Parametric or non-parametric analysis? Why?• What about the future work related with your research?	
Minor REVISION comments		
Optional/General comments	I enjoyed reading the manuscript entitled "Effects of Bran and Hull Retention on the Sensory and Nutrients Composition of "Ogi" prepared from Maize, Millet and Sorghum". Manuscript is well organized but some proposed changes should be done. Some details in the Keywords and, and in the Alginate Quality in Several Studies section, should be completed. In my standpoint, is accepted with minor comments.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
