PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ul style="list-style-type: none">Characterization and identification of arbuscular mycorrhizal strains was studiedRhizosphere soils and roots of tomato and brinjal chilli and onion were subjected for isolation of AM fungiEleven AM strains were identified in tomato whereas nine each were identified from other three plants.	
Minor REVISION comments	The title needs to be reframed. The author has used word strains without characterization, instead they can use isolates. The data collected should be statistically analysed.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
