

## Review Form 1.7

Journal Name:	Asian Journal of Agricultural and Horticultural Research
Manuscript Number:	Ms_AJAHR_95050
Title of the Manuscript:	Alternate Bearing in Fruit Crops: Causes and Control Measures
Type of the Article	Review Article

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajahr.com/index.php/AJAHR/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Compulsory</b> REVISION comments</p> <p>1. <b>Is the manuscript important for scientific community?</b> (Please write few sentences on this manuscript)</p> <p>2. <b>Is the title of the article suitable?</b> (If not please suggest an alternative title)</p> <p>3. <b>Is the abstract of the article comprehensive?</b></p> <p>4. <b>Are subsections and structure of the manuscript appropriate?</b></p> <p>5. <b>Do you think the manuscript is scientifically correct?</b></p> <p>6. <b>Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b></p> <p>7. <b>Suggestion to improve the quality of the manuscript</b></p> <p>8. <b>The botanical names</b></p> <p>9. <b>Is the diagram is clear and visible?</b></p> <p>10. <b>The scientific part of the manuscript</b></p> <p>11. <b>The text body references</b></p> <p>12. <b>Is multidisciplinary approach is followed or required</b></p> <p>13. <b>The citations</b></p>	<p>The author(s) in this review have discussed a burning problem relating to the fruit crops. Till-date no permanent solution has been invented or discovered. However, to find out the measure to manage this problem, recent understanding about this subject is necessary at physiological, biochemical and molecular level. Though this part is missing but equally important for the scientists who are working in this field.</p> <p>Yes title is justified.</p> <p>Yes</p> <p>Yes</p> <p>Yes</p> <p>Yes</p> <p>Authors have discussed about ABI, but the crop-variety wise ABI index is not provided. Addition of this part may certainly improve the quality of the manuscript. Check the spelling of botanical names as indicated in the manuscript as track change mode</p> <p>The diagram should be reframed with clear and neat picture What does during OFF YEAR happened in the fruit trees that in the next year there is an overload of the fruiting. This thing should be clearly justified.</p> <p>The placement of the references in the manuscript body is not correct for few instances. Like fruit harvest (Singh <i>et al.</i> 2017) at Pantnagar, (Barman &amp; Mishra 2018) at Lucknow. The (Singh <i>et al.</i> 2017) must be after Pantnagar and (Barman &amp; Mishra 2018) must be after Lucknow. There may be more such problem. Therefore authors are requested to recheck the whole manuscript body.</p> <p>Not followed but certainly it will improve the quality</p> <p>The full citation of the references is required to be rechecked and write as per rule of the journal</p>	
<p><b>Minor</b> REVISION comments</p> <p>1. <b>Is language/English quality of the article suitable for scholarly communications?</b></p>	Yes	
<p><b>Optional/General</b> comments</p>	NII
