**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of „**Lack of Novelty**“, provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajcr.com/index.php/AJCR/editorial-policy> )

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	I can't find any compulsory revision comments as I have thoroughly seen the document from the beginning to the end	
<b>Minor</b> REVISION comments	Actually, the participants were too small and made the results to be insignificant .	
<b>Optional/General</b> comments	When the case study is done in case -control method, the study will be more robust and be applicable in the clinical settings/areas to manage the dyslipidaemic patients.	

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i> Yes, <b>ETHICS APPROVAL:</b> Institutional review board approval and in compliance with the ethical standards of the responsible institution on humansubjects as well as with the Helsinki Declaration and Informed consent from each participant was registered
