	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>Yes, because entrepreneurship as the subject of research study. Moreover, investments in the foreign exchange market or Forex is a great opportunity for entrepreneurship, which can achieve favorable results and financial freedom that many seek to find, a self-employment that today is glimpsed as the path that every entrepreneur expects to find</p> <p>No. It has to be modified as “Initiatives promoting culture and entrepreneurship to hire professionals in the economy and engage in the foreign exchange market in a region of Peru”</p> <p>The abstract has to be changed into the following: The objective of the study was to understand and determine the relationship between culture and entrepreneurship initiative towards investments in the foreign exchange market of the professionals of the College of Economists of La Libertad. Additionally, it was sought to establish the relationship between each dimension or cultural characteristic and the dimensions and characteristics that determine the entrepreneurship initiative towards investments in the forei The study is applied, quantitative, non-experimental, correlational, descriptive, explanatory, and comparative. The logical approach was employed. Using an inclusion and exclusion criterion, the survey was utilised as a data collection method, the questionnaire served as the instrument, and the Likert scale served as the measuring tool. The findings revealed a strong and direct association between the two variables as well as each of the characteristics assigned to each variable. Additionally, it is noted that a higher proportion of men than women are aware of the cultural and entrepreneurial components, and that a smaller proportion of people in both sexes think that the entrepreneurial initiative is influenced by variables outside of their control. Keywords: Culture, Entrepreneurship, currencies. Investments, Foreign Exchange Market Yes, they are appropriate</p> <p>Yes, they are scientifically correct</p> <p>This article has to review more of the recent studies as references.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>In few places, the authour has to check the language error. It is better to write the manuscript in academic writing to covey the right meaning of the research.</p>	
<p>Optional/General comments</p>
