PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	<ol style="list-style-type: none">1. The title needs to be redrafted as indicated.2. The abstract needs to be rewritten and arranged in order: Problem statement/introduction, Method, Result and conclusion.3. The introduction is disjointed: no communication and thought flow continuity.4. The methods and the whole manuscript need updated references.5. The Author needs to give the manuscript to an English language expert for review or use Grammarly app for language check.6. One-way analysis of variance (ANOVA) should be employed to determine statistical significance; level of significance can be introduced to compare the differences among groups tested.7. Results may be presented in more fascinating tables.	
<u>Minor</u> REVISION comments	Subtopics should be written in sentence case (only first letter should be in caps).	
<u>Optional/General</u> comments	Mendeley app can be used for neater and more orderly referencing.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
