

Review Form 1.6

Journal Name:	Asian Journal of Research in Crop Science
Manuscript Number:	Ms_AJRCS_94601
Title of the Manuscript:	Assessment of foliar spray of iron and salicylic acid under artificial magnetism on Various Metabolites of Pisum sativum
Type of the Article	Research

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajrcs.com/index.php/AJRCS/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Good paper, with original thinking, a good literature review, and citations. Useful information was generated. The authors have not used a proper comparison statistic to compare the significance of mean differences. Suggest using Fisher's protected Least Significance Difference (LSD), Duncan Multiple Range Test (DMRT), or any other for this purpose. That will elucidate which factors and levels are significantly greater, not just visually greater, than the others. Are interactions significant? This would help identify the important levels of each factor. Because it was mentioned that treatments were from the factorial arrangement. It would be good to see the results of ANOVA to judge.	
Minor REVISION comments	Grammar is there to correct.	
Optional/General comments	Check the comments given on the manuscript.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
