### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalarja.com/index.php/ARJA/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	The chosen field is important from a scientific point of view. 1.The entire article should be checked for minor grammatical errors, punctuation, etc.; 2. Citations in the text do not comply with the requirements of the magazine's editorial guidelines; 3. Sections and subsections in the text are not numbered. 4. For a better understanding of the manuscript, the results and discussions should be separated. The discussions will be elaborated mentioning the related studies and the comparison of the results.	
<b>Minor</b> REVISION comments	Minor editing errors.	
<b>Optional/General</b> comments	The subject is good, the approach is pragmatic and precise and the results are clear, well systematized and bring useful information to practitioners. I recommend publishing it after reviewing the manuscript.	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
