PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> The abstract should be concise enough for the reader to understand the full idea of the manuscript. A literature survey includes an introductory section that will demonstrate the writers' comprehensive understanding of the topic. Check the typo error in this sentence "Z is the random variable representing the total number of "yeses" reported by the n respondents." A is not mentioned 1, if 1th respondent belongs to A 0, otherwise methodology should describe the suggested approach. Case study explanations and the tools utilised for the study should be included in the result analysis. In order to emphasise the study, the conclusion section must thoroughly summarise the manuscript. Several references should be included. 	
Minor REVISION comments	Above ALL	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
