PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments I think it is a promising drug therapy and now needs to be extended to real clinical applications. Any real case clinical results?	It is a fine paper for a possible candidate drug therapy for hypertension. Any real case applications in a clinical setting?	
Minor REVISION comments May want to enhance the oxidative stress applications; maybe as a follow up paper?	Follow up work on the clinical applications?	
Optional/General comments	Good as a first paper for new drug therapies in hypertension reversal based on the rat testing.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
