

Review Form 1.6

Journal Name:	European Journal of Medicinal Plants
Manuscript Number:	Ms_EJMP_94648
Title of the Manuscript:	STUDY OF THE EFFECT OF HYDROETHANOL EXTRACT OF ANNONA SENEGALENSIS LEAVES ON THE ACTIVITY OF BITIS RHINOCEROS (VIPERIDAE) VENOM IN BLOOD COAGULATION
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> Plant authentication should be done . if done then mention voucher specimen number . In Figure 1: Prothrombin value of different solutions P+ Vc₁: Patient Plasma + Venom at 10⁻² mg/mL shows less Prothrombin value as compare with other groups justify? In Figure 2: Activated Partial Thromboplastin Time value of the differnt solutions, P+ Vc₁: Patient Plasma + Venom at 10⁻² mg/mL taken more time as compare with other groups justify? Why Bitis rhinoceros venom is selcted for study the modulation effect on coagulation parameters justify? Write complete reference. E.g: [16] Korotoumou T., Mahamane H., Adama D., Fatoumata K., Marie N., Birama D., Seydou M & Rokia S. 2019. Phytochemical Screening and Biological Activities of Four Plants Used in Mali in the Management Burden of Malaria in Children. European Scientific Journal,15 (6). Explore the latest full-text research articles and cite it in manuscript for reference. Formatting is necessary 	
Minor REVISION comments	<ul style="list-style-type: none"> Annona senegalensis contain molecules that could neutralize the action of the venom in the coagulation disorder. please elaborate detail mechanism . Why 70% ethanolic extract was used for stdy? justify 	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
