General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalejns.com/index.php/EJNFS/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Good effort. But relevant references are not indicated in the required area. In a scientific article, references should be included in appropriate places to justify the statements The reference list needs to be revised as it is not in the standard format. Ex. APA style	
Minor REVISION comments	Good to rearrange the article with proof references. Reference in the tables should be corrected according to standard method	
Optional/General comments	Grammatical errors need to be corrected	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i> Some references are not included. It may lead to ethical issues. Authors can avoid it by including references
