<b>Compulsory</b> REVISION comments	Avoid including in Keywords those words that are part of the title like; Ecological Health petroleum effluents, do a review of it's references, some are missing in the text or the year written in references doesn't match, example Cheimonopoulou, et al. (2010), this is the way written in the text, but in the references it has (2011), so I recommend a careful review, otherwise the paper is fine and it has good information	
<b>Minor</b> REVISION comments
