PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <ol style="list-style-type: none"> 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>There is no in-depth explanation as to why it is important to carry out this research which is linked to aspects of sustainable agriculture and aspects of climate change. This journal aims to support engineering science research to promote sustainable development with environmentally friendly engineered systems that support human welfare and are also compatible with sustainable natural (environmental) systems. Thus, the title and content of your research (starting from research objectives, introduction, discussion, to conclusions) must be linked to aspects of sustainable development, for example focusing on the topic of sustainable agriculture and its impact on climate change.</p> <p>The title of the research article is still not in accordance with the theme of the scientific focus area in this journal, so the research title needs to be changed to: "INTERACTION EFFECTS OF CHICKPEA PLANT (Cicer arietinum L.) WITH SULFUR AND ZINC ELEMENTS TO REALIZE SUSTAINABLE AGRICULTURE"</p> <p>The research abstract still needs to be adjusted to the research objectives with the focus of the scientific field desired by this journal.</p> <p>Still not suitable, for example: The table design should not use vertical lines and be adapted to the template format provided in this journal. And then, all citation writing in paragraphs and references from your research must follow the template format provided in this journal.</p> <p>The research manuscript is scientifically correct, but it still needs to be adjusted to the focus of the scientific field desired by this journal. Aside from that, do you not use tools and materials in your research? If using tools and materials, it should be presented in tabular form, what types of tools and materials are used and accompanied by their uses. And we recommend that the field where your research experiment is presented is in the form of photographs or pictures.</p> <p>Ten more references need to be added from the results of research indexed by Scopus and at least the last five years.</p>	
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> 1. Is language/English quality of the article suitable for scholarly communications? 		
<p>Optional/General comments</p>
