

Review Form 1.6

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_93569
Title of the Manuscript:	Evaluation of different clustering techniques in classifying the vegetable growing panchayats of Ernakulam district, Kerala
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijpss.com/index.php/IJPSS/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Abstract L8: include the purpose of this study clearly and must be the same as the introduction L20-L21: Enter the results of the discussion in the form of numbers that have been analyzed Introduction L25: write the source where the theory was taken to strengthen the opinion Materials and Methods L55-L56:: a map of the research location needs to be included to find out the research position, complete the number of days the research was carried out in the field , complete data collection how many times the research was carried out in the field L126-L127:: write the source where the theory was taken to strengthen the opinion Result and Discussion L168: need to check again the number of clusters so that the table and description are the same L169-L170: complete the table with the source and the year when the data was taken to make it clear L300: need to check again the table that is written, try not to break it and stay together Conclusion L336: also include the results obtained from the discussion the Cluster mean based on Euclidean distance	
Minor REVISION comments	need improvement before the article is published	
Optional/General comments	-Some information needs references. - The authors have described a research project that . Evaluation of different clustering techniques in classifying the vegetable growing panchayats of Ernakulam district, Kerala This research is This research is very interesting to be developed studies to the scientific . However, the manuscript requires improvements	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
