EDITORIAL COMMENT'S on revised paper (if any)	Authors' response to editor's comments
<p>Revision required</p> <p>The authors have not performed the statistical analysis on Tables .</p> <p>Are data shown in tables mean values? If they are mean values, the authors should state how many measurements were averaged.</p> <p>Each data should be shown in the form of mean <math>\pm</math>SD (or SE).</p> <p>The authors should state how many times the experiment were run and state whether the reproducibility of the data was checked.</p> <p>The authors should state how treatment conditions were selected</p>	<p>The experiment was conducted as Factorial RBD</p> <p>Data presented are mean values obtained after performing ANOVA using the statistical package "GRAPES" (Gopinath P.P, Parsad R, Joseph B, Adarsh, VS. 2020. GRAPES: General Rshiny Based Analysis Platform Empowered by Statistics. <a href="https://www.kaugrapes.com/home">https://www.kaugrapes.com/home</a>. Version 1.0.0. DOI: 10.5281/zenodo.4923220)</p> <p>CD (0.05) and SEm (<math>\pm</math>) values are given in the tables. Kindly refer tables 2,3 and 4.</p> <p>Not performed statistical analysis for table 1 since it was monthly weather data during the experiment period.</p> <p>The experiment was conducted from September 2021 to May 2022. Confirmatory trial not conducted.</p> <p>Treatments were selected based on a thorough review of the literature. Its practical significance is clearly mentioned in the introduction part.</p>
