

Editor's Comment:

First of all, I and my family wish you, all staff members of the group and their families, 'A very happy and prosperous new year, 2023'.

Regarding the manuscript, i went thru all the comments of the reviewers as well as other editors. I found that:

One of the referees also mentioned about the grammatical errors and poor writing. The editor, Dr. Maryam Darvish also mentioned the same in his/her comments and on that basis, rejected the manuscript. I personally feel that it is much harsh decision. He must have suggested to improve the manuscript (since both the referees recommended publication of the manuscript).

The other editor, Dr. C.J. Chiang recommended the publication of the manuscript.

Under the circumstances, I am of the view that manuscript be sent back to Dr. Maryam Darvish for final decision. That's way, it will be felt that journal gives importance to the views of all the editors.

Whatever will be the comments (if any) from him, same may be taken care of by the authors, and thereafter, manuscript may be accepted for publication accordingly.
