PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The paper is very well written which describes a mathematical model on Corona Virus in Kenya. The author have justified the model with valid proof and the equilibrium points along with the reproduction number is obtained correctly. The numerical simulation is done extensively which brings out some interesting results. I therefore recommend this article for publication in the journal
