PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The manuscript is based on procedures in Percutaneous Coronary Intervention. In this manuscript, the authors have attempted to compare the imaging procedure namely, Optical Coherence Tomography (OCT) and Intravascular ultrasound (IVUS) for procedural optimization in Percutaneous Coronary Intervention. The authors have mentioned it as Original research article. But the aim & objective, material and methodology, Data analysis and interpretation, statistical analyses and conclusion are missing. If the authors have attempted to review, the manuscript should be revised accordingly.	
Minor REVISION comments	The authors should be clear if this is a review article or original research.	
Optional/General comments	The content is good and well written but the original research article must adhere to the lines of STROCCS or appropriate model depending the research done.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
