PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. (Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)	 The order of the text with justified paragraphs and punctuation marks used correctly is important. The discussion contains very little information from other studies. I suggest strengthening the discussion with more bibliography of similar studies. Verify the language inserted in tables and graphs.	
Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications?	Yes. It is	
Optional/General comments
