

Editor's Comment:

I hereby submit the decision for the article Ms_JENRR_94875 with the title "Analysis of the targets and progress toward meeting the 2030 agenda for SDG 7 on affordable and clean energy: Evidence from India.

After observing the comments from the reviewers and the responses of the authors to these comments, the article is suitable for publication in [Journal of Energy Research and Reviews](#), after the authors have made several minor revisions.

In Figure 3, the authors are advised to provide information on the vertical and horizontal axes. Table 3 does not meet the standards of a reputable international journal. For this reason, the authors are advised to improve the table, by removing the vertical and horizontal lines, except for the title and the end of the table.
