

Editor's Comment:

After observing the comments of the reviewers and the responses of the authors to improve the article according to the suggestions of the reviewers, and now the article meets the standards of a reputable international journal. Therefore, I decided that article coded **Ms_JENRR_95076** with the title "**Fabrication and Characterization of Charcoal briquettes fuel from a blend of coconut husk and corncob**" can be published in [Journal of Energy Research and Reviews](#).
