

Review Form 1.6

Journal Name:	Journal of Engineering Research and Reports
Manuscript Number:	Ms_JERR_85569
Title of the Manuscript:	Investigating the impact of sieve analysis on the choice of gravel pack design for wells in unconsolidated sandstone formations in the Niger Delta
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljerr.com/index.php/JERR/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	This is a very interesting study and it helps to solve the problem of sand production. However, in the introduction part, the research status of sand production problem is not introduced in detail, including what specific problems exist in experiments, technology and theoretical methods, especially Niger Delta. It is recommended to add the latest literatures.	
Minor REVISION comments	Second, it is best to specify in detail what the creative work or innovation of the paper is.	
Optional/General comments	Third, I hope you can use more advanced technologies to carry out more in-depth research in the future for the benefit of the Nigerian people	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
