### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments		
<b>Minor</b> REVISION comments	The researcher should write more deeply about the variables of the study in the theoretical framework, especially with regard to the dependent variable, Where the researcher delved into the presentation of the motivation variable and its theories without delving into the total quality variable. In discussing the results, the researcher was not successful in justifying the results, and did not show any comparisons of his results with previous studies that were presented.	
<b>Optional/General</b> comments	The researcher presented a summary of the thesis in an attractive and elegant way. He was also creative in presenting the introduction, including the problem, importance, and objectives. It also beautifully displayed the relationship between its variables. The research topic is considered one of the important topics in the field of management
