PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ul style="list-style-type: none">- Where is the structural analysis for the prepared films?- The author did not rely on the equations from which some Figures were reached, and this is considered a failure to address the correct scientific form of the work.- The author doesn't use sufficient techniques to characterize the materials for a better scientific discussion.- The figures' numbers are incorrect and inconsistent with the text (see transmission, absorption, Fig. 13(a, b, c),... etc.). During the review process, this causes confusion. The author must review the text with the figures' numbers and correct them.	
Minor REVISION comments	<ul style="list-style-type: none">- Manuscript language need to improvement	
Optional/General comments
