<b>EDITORIAL COMMENT'S on revised paper (if any)</b>	<b>Authors' response to editor's comments</b>
<p>1) Figure 4.3 should be Figure 1 2) Table 4.1 should be Table 1 3) The citations in the text are in order, they must be in progressive numbering: 1, 2, 3, and so on 4) Citation (Ndefo et al., 2013) should be a number 5) References have not been updated 6) Most paragraphs do not have a reference number 7) They have not included the tables with statistical analysis of previous studies. 8) Discussion and conclusion should be focused of the mechanism of the effects gained from experimental articles</p>	<p><b>Did all the changes please check.</b></p>
