

Review Form 1.6

Journal Name:	Physical Science International Journal
Manuscript Number:	Ms_PSIJ_94795
Title of the Manuscript:	About Nature of Nuclear Forthes
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalpsij.com/index.php/PSIJ/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments		
Optional/General comments	<p>This article proves that the attraction between protons and neutrons can be explained by the well-known quantum mechanical effect, which was first described about a hundred years ago. This is the attraction between two protons that occurs when they are exchanged by electron (in this case relativistic). This makes it possible, abandoning the gluon model, to obtain quantitative estimates of the magnitude of the mass defect of both light and heavy nuclei. The manuscript is clear, concise, reasonably self-contained presentation of the material and Figs. are clear, giving adequate reference to related work, the title is appropriate and the abstract is adequate for verbatim reproduction in abstract journals. This work is good.</p> <p>So I recommended this work to publish in Physical Science International Journal .</p>	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
