

Review Form 1.7

Journal Name:	Asian Journal of Fisheries and Aquatic Research
Manuscript Number:	Ms_AJFAR_95510
Title of the Manuscript:	Composition of Flavour Non Volatile Compound Steamed Milk Fish (Chanos chanos)
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. (Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)	This study is important for scientific community. It is scientifically correct. Research on the identification of the composition of non-volatile flavor compounds in milkfish has not been found in Indonesia. Identification of the characteristics of non-volatile flavor compounds of a commodity can be used as data for mapping the flavor composition of a product. This data can be used as a basic data for the application of a product, one of which is flavoring agent. Title of the article is suitable. Abstract is comprehensive. Subsections and structure are appropriate. Studies about useful enzymes for fishery should be cited, e.g. doi: 10.1159/000446567; 10.4014/jmb.1708.08007. Also, studies about food quality should be cited: 10.1038/s41598-019-42157-2, studies about VOCs: 10.1007/s00253-022-12038-2	
Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications?	Yes	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
