

Review Form 1.7

Journal Name:	Asian Research Journal of Mathematics
Manuscript Number:	Ms_ARJOM_95831
Title of the Manuscript:	Locally Attractivity solution of coupled fractional integral equation in Banach Algebras
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalarjom.com/index.php/ARJOM/editorial-policy>)

Review Form 1.7

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>1. Yes, it is. Since deals the existence solution coupled hybrid functional integral equation of fractional order Banach algebras</p> <p>2. Yes, it is suitable.</p> <p>3. No, it needs minor changes.</p> <p>4. Yes.</p> <p>5. Yes.</p> <p>6. No. I will suggest few latest references.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>1. Minor changes required. The manuscript should be checked again to fix any typos such as missing spaces and commas.</p>	
<p>Optional/General comments</p>	<p>1. I suggest revising the abstract. The abstract should contain the summary of your work with best-achieved results from the performed analysis.</p> <p>2. Add nomenclature for all the symbols and abbreviations like CQHFIE.</p> <p>3. Cite all of these numerical studies: DOI: 10.1007/s40430-019-1993-3, DOI 10.1088/1873-7005/ab67d9, DOI 10.1007/s10237-020-01338-z, DOI: 10.1016/j.cmpb.2020.105413, DOI /10.1016/j.cmpb.2020.105313, DOI /10.1140/epjp/s13360-021-01669-5, DOI /10.1140/epjp/s13360-022-02796-3, DOI: 10.1007/s10237-022-01600-6, DOI: 10.1142/S0217979223501874</p> <p>4. What is the convergence criteria of the numerical scheme used? Is possible to use any other numerical technique to verify these results?</p> <p>5. Discuss about the stability of the numerical scheme used.</p> <p>6. Where is the overall pseudocode? Flowchart? of the suggested approach?</p> <p>7. Add keywords and conclusion section.</p>	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>	

Reviewer Details:

Name:	Zeeshan Asghar
