

Review Form 1.7

Journal Name:	Asian Soil Research Journal
Manuscript Number:	Ms_ASRJ_95518
Title of the Manuscript:	Physico-chemical properties in rhizosphere of field crop covers during growth stages in a sandy loam soil
Type of the Article	Research

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <ol style="list-style-type: none"> 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>Yes. subject to improvement and incorporation of referees comments No: It can be." Physico-chemical properties in rhizosphere of some field crops at different growth stages in a sandy loam soil of.....region of Nizeria. (Authors should mention under which climatic zone the study area falls)</p> <p>To certain extent calls for lot of improvement and incorporation of suggestions/observations and comments given by the author. In the title authors have mentioned sandy loam texture but in the abstract they are writing sandy clay loam ..clarify and rewrite Authors must mention the exact location of study area ex. District/state/country etc. To my knowledge it should be Choba, Rivers State, Nigeria. Need to be confirmed by the authors. Better it should also be reflected in the title.</p> <p>yes To certain extent: After incorporation of reviewers observations, it can reach the scientific correction level. Lot many references have been given .It has been suggested to delete some of them which are not directly related to the present study -Introduction must start with the following sentence Rhizosphere is the region of soil in the vicinity of plant roots in which the chemistry and microbiology is influenced by their growth, respiration, and nutrient exchange. -Several comments related to additions and deletions have been made in the introduction, results and discussion components which need to be attended critically -In the experiment layout, planting section of materials and methods information related to Seed rate of maize and okra and planting distance (row to row and plant to plant of Peeper and garden egg and duration of all the crops need to be given.</p>	
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> 1. Is language/English quality of the article suitable for scholarly communications? 	<p>----language/English quality of the article calls for lot of improvement.</p>	
<p>Optional/General comments</p>	<p>Have already been explained in the Part1 of reviewer's comments. Authors must attend all the corrections done on the body of manuscript</p>	

Comment [NS1]: Add it at the start

Comment [NS2]: Do the needful

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
