

Review Form 1.7

Journal Name:	International Journal of Environment and Climate Change
Manuscript Number:	Ms_IJECC_95910
Title of the Manuscript:	Evaluation of culture filtrates of endophytic microorganisms from tomato against Ralstonia solanacearum
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijecc.com/index.php/IJECC/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>A secondary metabolite from microorganisms and its antibacterial properties contribute to plant growth</p> <p>The topic is relevant and suitable for this study</p> <p>However, add the primary steps or processes</p> <p>Biochemical study, staining of isolates, growth parameters and field work, extraction procedure According to research, this manuscript discusses secondary metabolites of bacteria and their applications. A biocontrol tool is essential to farming, so this work benefits farmers and is economically significant.</p> <p>https://ejbpc.springeropen.com/articles/10.1186/s41938-022-00575-x https://www.frontiersin.org/articles/10.3389/fmicb.2021.609482/full</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Language is good</p>	
<p>Optional/General comments</p>	<p>If the metabolites belong to these compounds, how do you prove it? Have you performed molecular techniques? How about the extraction process?</p> <p>Add more references</p>	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
