

Review Form 1.7

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_95628
Title of the Manuscript:	Genetic Variability and Path Analysis for Yield and Associated Traits in Linseed Genotypes.
Type of the Article	Research article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalijpss.com/index.php/IJPSS/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. (Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)	<p>In the present study, fourteen agro-morphological characters in <i>Linum usitatissimum</i> L. were analyzed. The genotypic and phenotypic correlation between them was investigated. The influence of the environment is also reported. The studied genotypes were found to show variability that could be used for further breeding activities. In this sense, the material is suitable for publication.</p> <p>The abstract of the article is comprehensive.</p> <p>The structure of the manuscript is appropriate.</p> <p>The MS is scientifically correct.</p>	
Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications?	<p>In the "Introduction" part, it is necessary to indicate the purpose of the study.</p> <p>In "Materials and methods" it is necessary to describe in more detail the ways to calculate the genotypic coefficient of variation (GCV), phenotypic coefficient of variation (PCV), and path coefficient analysis, as well as the statistical method used.</p>	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
