(If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. (Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)	<p>The manuscript is very interesting, as the topic of UAV and OSA are nowadays one of the most important problems to be solved in modern dentistry.</p> <p>Yes, it is</p> <p>Yes, however the spelling should be checked</p> <p>Yes,</p> <p>From my point of view, it is quite clear, the method and materials are well designed, the discussion and reference seems suitable.</p> <p>Yes</p>	
Minor REVISION comments 1. Is language/English quality of the article suitable for scholarly communications?	The spelling and punctuation needs verification.	
Optional/General comments	The articles is very important according to the fact that more and more people are facing dento-facial-skeletal problems and traditional orthodontic treatment is most not enough, The usage of CT or CBCT scan is a good way for planning, adjusting and verifying. I would also like to know whether the patients underwent any breathing therapy before and after surgery? With ENT or speech language therapist? The change in UAV and soft tissues may need extra support from other specialist. Do you work interdisciplinary?	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
