This study also brings out important psychosocial trends and patterns in an important segment of society with policy implications and it attempts to analyze the reasons behind the observed social behavior. The finding was that majority of the people believed that the move was in favor of the nation and had public support but some where there also seemed to be an apparent lack of planning in implementing the scheme. This study brings out important psychosocial trends and patterns in an important segment of society with policy implications and it attempts to analyze the reasons behind the observed social behavior. The paper consists of the sections: Introduction, Literature review, Methodology, Data Analysis, Findings, Summary and Conclusion.</p> <p>However, I find some recommendations:</p> <ol style="list-style-type: none"> 1. The abstract must contains the main purpose of the paper, the research method used in the research and the main contributions. 2. It would be very useful to add in the "Introduction" section the purpose, objectives and hypothesis of the research. 3. I consider an econometric model will increase the quality of the paper. <p>We recommend the authors to number the paragraphs: 1. Introduction; 2. Literature review; 3. Methods and Results, Discussions and Conclusions. In conclusion, the article should be thoroughly rebuilt. It should also be enhanced with a review of the literature adequate to the subject and a broader interpretation and commentary of the research results.</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	Yes	
<p>Optional/General comments</p>	Authors must be careful in using the article "the" and agree with the 3rd person. For example, in the Abstract the authors write: This study aims instead of: this study aims...
