PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>Yes</p> <p>Yes</p> <p>Yes</p> <p>Yes</p> <p>Yes</p> <p>Yes</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Almost.</p> <p>1. There is at least one sentence which I suggest be revised: Purposive sampling was done for the selection this institute as it was attached to a government teaching medical college and catered to large volumes of paediatric patients and here all children between 0 and 16 years of age were routinely vaccinated free of cost as per the National Immunization Schedule (NIS) under the Universal Immunization Programme (UIP).</p> <p>2. In Reference number 11 ofrouine should be of routine</p> <p>3. 3. There is at least one place where a comma should be inserted</p> <p>Recommendation: One can see that a lot of time and effort were put into forming the content. However, the narrative could benefit from a re-read, if possible by a native English speaker</p>	
<p>Optional/General comments</p>	<p>An important and well researched topic</p>
