### **General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaljocamr.com/index.php/JOCAMR/editorial-policy> )

### **PART 1: Review Comments**

|   | <b>Reviewer's comment</b>   | <b>Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</b> |
|---|---|--|
| <p><b>Compulsory</b> REVISION comments</p> <p><b>1. Is the manuscript important for scientific community?</b><br/>(Please write few sentences on this manuscript)</p> <p><b>2. Is the title of the article suitable?</b><br/>(If not please suggest an alternative title)</p> <p><b>3. Is the abstract of the article comprehensive?</b></p> <p><b>4. Are subsections and structure of the manuscript appropriate?</b></p> <p><b>5. Do you think the manuscript is scientifically correct?</b></p> <p><b>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b></p> <p><b><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></b></p> | <ol style="list-style-type: none"> <li>1. Yes, the manuscript is important for the scientific community, since it allows a better understanding about the topic.</li> <li>2. Yes, the title is adequate for this manuscript, it is well understood what they want to present.</li> <li>3. Yes, the abstract does show enough data for an understanding of the article</li> <li>4. Yes, the subsections and structure of the article is adequate, it contains all the necessary data for its understanding, however it is necessary to make changes in the grammar</li> <li>5. Yes, the manuscript is scientifically correct for the scientific community</li> <li>6. Yes, the references are enough, although I recommend that you add more current references.</li> </ol> <p><b><u>additional suggestions</u></b></p> <p>In the results part, the graphs have a lot of color and it doesn't say anything. I suggest that you unify the colors and explain what was obtained in each graph.</p> |  |
| <p><b>Minor</b> REVISION comments</p> <p><b>1. Is language/English quality of the article suitable for scholarly communications?</b></p>  | <p>The quality of the English language of the article is not suitable for academic communications, they need to check the grammar very well, I corrected some errors, but they need a more exhaustive review</p>  |  |
| <p><b>Optional/General</b> comments</p>   | <p>I have no optional comments</p>  |  |
