<p>Compulsory REVISION comments</p> <ol style="list-style-type: none"> 1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript) 2. Is the title of the article suitable? (If not please suggest an alternative title) 3. Is the abstract of the article comprehensive? 4. Are subsections and structure of the manuscript appropriate? 5. Do you think the manuscript is scientifically correct? 6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form. <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>The manuscript submitted to this journal entitled " A Plausible Implication of the Universe Accelerated Expansion on Extragalactic Radio Source Luminosity " is an interesting topic for publication. But the authors need to make some minor revisions, which is given below:</p> <ol style="list-style-type: none"> 1) The topic of this manuscript is interesting and attractive for the scientific community. This topic is very exciting and has a high scientific level and is also acceptable to the scientific community. 2) The title of the manuscript is vague and incomprehensible and needs to be corrected. 3) The abstract section is incoherent and needs to be written in a more appropriate format and logical framework. 4) The subsections and structure of the manuscript aren't appropriate. 5) The manuscript is scientifically acceptable. 6) It is better to use more and newer references. 	
<p>Minor REVISION comments</p> <ol style="list-style-type: none"> 1. Is language/English quality of the article suitable for scholarly communications? 	No. The manuscript should be corrected in terms of native English grammar.	
<p>Optional/General comments</p>	The discussion section is very poorly written and needs to be corrected. Also, in the conclusion section, the results of the study should not be compared with the results of others.
