PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</p>	<p>1. This is a loosely written manuscript and since no study can be undermined, this one too can contribute to the scientific community</p> <p>2. Application of WHO symptom screening Approach to diagnose Tuberculosis by Non-Clinicians among HIV positive individuals at (name of treatment facility) treatment facility in southern Nigeria</p> <p>3. To some extent. Please rephrase some sentences. Its better to use phrase HIV positive rather than people living with HIV. Please rephrase the entire abstract and also if possible write in small letters. It's hard to read in all caps.</p> <p>4. yes</p> <p>5. Scientifically manuscript seems ok. Please add little more information about the geographical area and may be a map and also regarding HIV burden and AIDS. Explain more about WHO four symptom method</p> <p>6. references are acceptable</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	No	
<p>Optional/General comments</p>	Please write line numbers at the start of each new line as it makes easier for the reviewer to point out any error and for author to correct it	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
